1

PROBE CPMP-3-50-O5 50cm, 5m IR FREE DC COUPON #18-3/C XLPE/PVC CABLE BLACK

Suitable for use with both new build and existing structures, the CPMP is installed adjacent to the protected structure and contains a permanent internal reference electrode encased in a steel coupon. This innovative design shields the reference electrode from external interference and provides an error free and highly accurate reading of structure potential,

★★★★★1

\$115.63 (Inc Tax)

STOCKED - QUICK SHIP

ZERO RESISTANCE AMMETER PORTABLE BATTERY STANDARD RANGE CSCL ZRA

The amount of current that is discharged off the validation coupon is typically very small and measurement tools require micro amp resolution. Conventional ammeters are inadequate for reading small currents since the loading effect of the meter adds an error value to the reading. The ZRA overcomes this loading effect and provides an extremely
