

DENSO[®] ROCKSHIELD

PROTECTIVE PIPELINE MESH

PROTECTS COATINGS FROM:

- Rocky Backfill
- Protrusions
- Abrasions
- Ground Shifting
- Ground Expansion or Contraction
- Extreme Weather Conditions

ROCKSHIELD IS MANUFACTURED FROM HIGH DENSITY POLYETHYLENE (HDPE) INCORPORATING A SPECIAL EXPANSION PROCESS TO PROVIDE COMPRESSIVE STRENGTH AND FLEXIBILITY. IT IS EXTRUDED INTO A DIAMOND MESH PATTERN.

Denso provides standard duty (SD) and heavy duty (HD) to meet your pipeline coating protection needs. Flexible 50 ft rolls or custom cut pads that can easily be installed without special training.

FEATURES:

- Flexible for easy handling even at low temperatures
- Lightweight
- Porous mesh allows water flow for cathodic protection and testing
- Inert and environmentally stable
- High impact strength and tensile strength
- Cost effective protection for pipeline coatings
- Available in rolls or pads
